

Big House, Little House, Back House, Barn: The Connected Farm Buildings of New England

Wednesday, 7 PM, July 19, 2017

Meetinghouse, Canaan Street, Canaan NH

A talk by Thomas Hubka shows how northern New England farmers converted their separate houses and barns into connected farmsteads. Average farmers were motivated by competition with farmers in other regions who had better soils and growing seasons and fewer rocks to clear.

Thomas Hubka earned his Bachelor's in Architecture from Carnegie-Mellon University and Master's from the University of Oregon. He is the author of *Big House, Little House, Back House, Barn: The Connected Farm Buildings of New England*.

Free admission.

Refreshments served.

Sponsored by Canaan Historical Society and New Hampshire Humanities.
